

JETCORP INTERNATIONAL

JetCorp International is a team of highly experienced aviation professionals who apply our expertise to any undertakings, large or small. Backed by 30 years of aviation experience, we have been providing high-quality aircraft and helicopter charters to a large variety of Australian and International businesses since 2006.

Managed by Airline Transport Pilot License (ATPL) holders, with thousands of commercial flight hours experience, you can rest assured your safety is in good hands.

Over the years our flights have supported the who's who of the corporate world, mining, military movements, medical

evacuations, maritime searches, firefighting, politics, tourism and hundreds of team supporters on a mission!

INTERNATIONAL FREIGHT SPECIALISTS:
The Boeing 747-400ERF (Extended Range Freighter). Featuring a large nose and side door, the aircraft is a logical choice for global, high value or difficult to load machinery over extended distances.

- With a maximum take-off weight of 412,750kgs / payload of 120,000kgs / fuel capacity of 216,845L / an endurance of 9,200km this is an enormously capable freighter.
- The bonus of nose loading accommodates lengthy, odd-sized

cargo that is impossible to load via the standard side door of most freighters.

- Loading lengthy pieces up to 42.6m makes the aircraft a vital freight provider for oil / gas / mining, manufacturing, and other heavy industries.
- The B747-400ERF is endlessly versatile and available for global deliveries, on standby and ready to address any urgent missions.

ADDITIONAL SERVICES INCLUDE:

- Australian domestic and ultra-long range international jet charters.
- Scheduled remote area FIFO flights – 50 to 150 Pax. Domestic/International locations.

- High performance compact jets/turbo-prop aircraft, ideal for marginal/gravel runways.
- Air Ambulance / Medi-Vac flights / Domestic and International / Medical team support.
- City and rural turbine helicopter support / Experienced and knowledgeable Pilots.
